

Please do not rescind the NJ Telephone Consumer Protection Act. The past 6 months have been much more peaceful & stress-free at home after work. Have not had many unsolicited phone calls from telemarketers. I pay for my phone number, that makes it mine to give out to whom I please, not to have it be on a list so that a business can use it to drum up their own profit. When telemarketers pay for my phone service, then they will have the right to call my number.
